DEPARTMENT

Misc. Spill Investigations

On May 2, 1988 at 6:00 p.m. I received a call from Gene Pabst. He indicated that DNR had called concerning a citizen's complaint about "cloudy water" in the drainage ditch at the Hardee's Restaurant located at 2604 E. Sunshine. I found during my investigation that the drainage ditch behind Hardee's and Wray's 66 was dry with no evidence of any dumping into this ditch.

I observed the NPDES discharge from G.E., which is in the general area, and found only clear water. DNR apparently received this complaint at 11:00 A.M. on the 2nd. The time lapse between DNR receiving the complaint and my investigation at 6:00 p.m. may have allowed the "cloudy water" to be diluted or to travel to the point where this water goes underground.
